

LUCIANO A. ROSSI

FRONTEND DEVELOPER · REACT · TYPESCRIPT · NEXT.JS

Buenos Aires, Argentina
lrossi0798@gmail.com | linkedin.com/in/luciano-rossi-98a38817b

PROFILE

Frontend developer with over four years of experience building enterprise applications for the energy and financial sectors. Currently the sole frontend developer on a product within YPF's Mobile squad, owning everything from architecture and the component system through implementation and maintenance. Experienced in modernizing legacy applications onto current React and TypeScript stacks, translating business requirements into clear interfaces, and working alongside backend, UX and business teams. AI-assisted development (GitHub Copilot, Claude Code) is part of my daily workflow.

PROFESSIONAL EXPERIENCE

Frontend Developer

CDA Informática · Jun 2022 – Present · Buenos Aires, Argentina

NexPlan — YPF, Mobile squad · 2024 – Present

Greenfield product whose component layer was adopted as the base template for the company's upcoming developments.

- Built the frontend from the project's inception, defining the architecture together with a senior developer and currently acting as the sole frontend developer.
- Built the component library from scratch with styled-components, based on the designs provided by the UX team and designed for reuse across future projects.
- Progressively took on backend work in .NET: bug fixing and endpoint development.

IAP · Project Digitalization System — YPF

Management system for the company's active projects (gas, oil and fuels) across their administrative, accounting and budgeting dimensions.

- Migrated the existing .NET 2.1 application to a modern architecture with a React frontend and a .NET BFF, developing roughly 90% of the frontend.
- Designed every view and the full interaction flow in Figma, covering for the absence of a UX designer assigned to the project.
- Implemented custom components on top of MUI with a bespoke theme, unifying the visual language across the application.
- Contributed to the configuration of Azure deployments.

Financial sector projects — Banco Galicia, Banco Itaú, Banco Macro

- Developed interfaces with React, TypeScript and Next.js for banking applications, with unit testing in Jest.
- Contributed to Banco Galicia's Debtor Information system.

Sales & Design Consultant

Danago Amoblamientos · Aug 2017 – Jul 2021 · Buenos Aires, Argentina

- Consultative sales and design of custom kitchen and bathroom furniture, gathering client requirements and following each project through directly.

TECHNOLOGIES
